# KULDEEP SHARMA

Backend Developer | Node.js | Express.js | PostgreSQL | MongoDB | Redis | AWS

Bengaluru, Karnataka | +91-8433202325 | kuldeepkh1305@gmail.com | LinkedIn | GitHub

## EXPERIENCE

**Backend Developer Intern — Keys on Rent (Bengaluru, Karnataka)** **Sep 2026 – Present**

- Developed and maintained RESTful backend services using Node.js, TypeScript, and Express.js for a production rental platform.
- Designed relational schemas and queries using PostgreSQL with Prisma ORM, and optimized MongoDB schemas, to improve query efficiency and API performance.
- Built and maintained CI/CD pipelines (GitHub Actions) to automate testing and deployment, reducing release turnaround time.
- Implemented authentication, authorization, and API security best practices to protect sensitive user data; collaborated via Git/GitHub code reviews in an agile team.

**Web Developer Intern — GRS India Pvt. Ltd. (Noida, Uttar Pradesh)** **May 2026 – Jul 2026**

- Developed responsive web application features using React.js, Node.js, and Express.js.
- Integrated RESTful APIs and optimized frontend-backend communication.
- Used Git/GitHub for version control and team collaboration.
- Debugged, tested, and improved application performance and code quality.

## TECHNICAL SKILLS

**Backend:** Node.js, Express.js, TypeScript, RESTful API Design, Authentication & Authorization (JWT, Clerk)
**Frontend:** React.js, Redux, Tailwind CSS, Framer Motion, HTML5, CSS3
**Databases:** PostgreSQL, MongoDB, Mongoose, Prisma ORM, Schema Design
**Caching:** Redis
**Cloud & DevOps:** CI/CD (GitHub Actions), Vercel, Render, MongoDB Atlas
**Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems
**Languages:** JavaScript, TypeScript, Java, Python, SQL
**Tools & Platforms:** Git, GitHub, Postman, VS Code, IntelliJ IDEA

## PROJECTS

**DeepInDiary — Founder & Full Stack Developer (Self-Initiated, Live Product)** **Apr 2026 – Present**

*deepindiary.vercel.app | github.com/kuldeep1306/deepindiaryy*

- Founded, architected, and independently built DeepInDiary, a live public platform for anonymously reporting scams, hidden truths, and crime news, from concept through production deployment.
- Designed the backend using Node.js/Express.js and MongoDB, covering REST API design, database schema design, and backend architecture, deployed on Render (frontend on Vercel).
- Owned the entire backend lifecycle solo, including API architecture, schema design, and security hardening (environment variable management, CORS configuration).

**JugaadU — MERN Stack Developer** **2025**

*jugaduu.vercel.app | github.com/kuldeep1306/jugad*

- Designed and developed the backend of a campus item-exchange marketplace using Node.js and Express.js, with RESTful APIs for listings, chat, and user data.
- Designed optimized MongoDB schemas for listings, chat, and user data to support efficient queries.
- Built a polling-based real-time chat system and Web Push Notifications, with the backend deployed on Render (frontend on Vercel).

**HostelMate — MERN Stack Developer** **2025**

*myhostelmate.vercel.app | github.com/kuldeep1306/HostelMate*

- Developed the backend of a hostel management system with RESTful APIs for room booking, complaint tracking, and authentication.
- Implemented role-based access control (student/admin) for authorization, with optimized MongoDB schema design for better performance.
- Integrated Google Gemini AI for automated complaint categorization and response suggestions, reducing manual admin workload.

## EDUCATION

**Raj Kumar Goel Institute of Technology and Management — B.Tech, Computer Science** **2022 – 2026**

*Ghaziabad, Uttar Pradesh*

## CERTIFICATIONS

- Object-Oriented Programming — TakeUForward (TUF)
- Programming with JavaScript — Coursera
